

Dominion's exclusive digital ballot audit trail.

Dominion's exclusive AuditMark® technology is a unique, visual audit trail, allowing results to be audited down to each individual ballot. This patented process not only images and stores a copy of the ballot, but also appends to that image a record of how the voter's selections were interpreted by the tabulator.

This is a sample ballot image for a Dominion Democracy Suite® ballot. The image contains:

- Clear image of all text, ballot identifiers, candidates and voter markings.
- Image of the front and back side of the ballot
- AuditMark®: Ballot-level audit trail feature showing the results interpreted by the system for this ballot.
- If a ballot is digitally adjudicated, an additional AuditMark® is added to show how the voter marked their ballot, how the scanner interpreted the intent, and how the ballot was adjudicated.

Benefits

Transparent

- At the bottom of every digital ballot image is an AuditMark® (ballot audit record), showing how each voter's mark was interpreted by the tabulator.

Accurate

- The AuditMark® functionality answers the question most often asked by constituents - "How do I know the scanner accurately interpreted my voter intent?"

Trustworthy

- By viewing a selection of ballot images, election officials can easily verify that the tabulator has accurately interpreted the voter's selections, and develop confidence in results.
