"I, (Georgia Acosta) am blessed to be a Cancer Survivor. While battling this dreaded disease these past few years, my commitment to you has never wavered. Fact: I have attended over 85% of (PVUSD) Meetings. Additionally, having survived multiple surgeries and Cancer treatments, I still actively participated with the (California School Board) and (National School Board) Associations.

My primary focus has always been to benefit the students, families, employees and taxpayers of the PVUSD.

17

I have: always had an independent voice in education with real financial accountability; protested the financial improprieties with your tax dollars; met with (Congressman Jimmy Panetta) advocating for funds for (PVUSD); had enough intimidation and bullying being used against dissenting opinions; remained outspoken about the improper hiring practices of the (PVUSD) Superintendent; fought against hiring unqualified employees and (non-credentialed) teachers; objected to inappropriate (PVUSD) relationships with District Leadership/Superintendent; supported working families that need their children safely back to in-person instruction."
