### IMPARTIAL ANALYSIS BY CITY ATTORNEY MEASURE L

If adopted, this Measure would increase the sales tax in Watsonville by one quarter of one percent ( $\frac{1}{4}$ %). The sales tax is sometimes referred to as "transactions and use tax". The present sales tax rate in Watsonville is eight percent (8%). This Measure would increase the rate to eight and one quarter percent (8.25%). The proposed increase would be imposed just like the present tax; upon the sale of tangible personal property sold at retail within the City limits and upon the storage, use, or other consumption of tangible personal property purchased from any retailer in the City limits.

All revenue from the proposed tax would go into the City's General Fund and would therefore be used by the City to pay for general City operations and services including police, fire, parks, building code enforcement and street repair and improvements. This Measure is therefore a "general purpose tax" rather than a "special purpose tax" and requires a simple majority vote.

This Measure would be valid and effective if and only if the voters also approve Measure M which amends Subdivision (b) of the City Charter, capping the City retirement tax. This sales tax would replace part of the revenue lost by capping the retirement tax.

### FISCAL IMPACT STATEMENT BY CITY FISCAL OFFICER MEASURE L

Measure L and Measure M are co-dependent. That is, both measures must be approved by the voters for either to take effect. Measure L would increase the sales tax rate in the City of Watsonville by ¼%, increasing City revenues by approximately \$1.1 million. Measure M would reduce the property tax for the City employees' retirement program by 30% and place a new cap of 7.7 cents per \$100 of assessed value on the rate which could be charged. Measure M would decrease City revenues by approximately \$1.1 million.

Because Measure L and Measure M would oppositely impact cost flow within the same fiscal year, projections show that the difference between the addition of increased sales tax collections and the reductions in retirement tax collections would be negligible. Therefore, if Measure L and Measure M are approved by the voters the impact on the City budget would be neutral.

The City of Watsonville currently has the lowest municipal sales tax rate in Santa Cruz County at 8%, or 8 cents on every dollar paid for a taxable item. Of this amount, the City of Watsonville receives 1%, or 1 cent on every dollar. These funds are used to pay for general City services such as police, parks, fire, neighborhood crime and gang prevention, community services, road and pothole repair and building code enforcement.

If voters approve Measure L, it would increase the total sales tax rate to 814%, and would raise the local portion the City receives to 11%. California cities are allowed to adopt increased rates above the 1% base rate as a "local option" based on State legislation.

Actual sales tax collections may vary from year to year depending upon economic conditions. The current sales tax rate generated \$5,879,813 for the annual period from July 2004 to June 2005 and is projected to generate \$6,513,353 for the annual period from July 2005 to June 2006. Based on projections, this proposed ½% increase would generate an additional \$1,055,000 in General Fund revenue for the fiscal year beginning in July 2007.

Many large sales transactions that occur within the City would not be impacted by this increase and thus would not generate additional sales tax revenue. For example, auto vehicles sold to parties residing outside of the City would not be taxed at the Watsonville sales tax rate nor be allocated to the City of Watsonville. Accordingly, any of these transactions would not be impacted by the proposed ¼% increase

Sales Tax is currently the number one revenue source for the City's General Fund and is almost 20% of total General Fund revenues. This demonstrates that the City's resources are balanced as many jurisdictions depend on much larger percentages for sales tax or their top revenue source, commonly between 30%-50%.

Many local jurisdictions have recently increased their sales tax rates. Salinas, Sand City and Scotts Valley have increased their rate by  $\frac{1}{2}$ -cent and Santa Cruz and Capitola by  $\frac{1}{4}$ -cent.

### ARGUMENT IN FAVOR OF MEASURE L

As part of the recent election regarding an existing property tax known as the Retirement Tax, the Watsonville City Council committed to the formation of a Blue Ribbon Committee charged with identifying a sustainable resource base for City services including the possibility of eliminating or reducing the Retirement Tax.

This Blue Ribbon Committee included representatives appointed by:

- Business
- Industry
- Real estate
- Labor
- Tax repeal proponents
- · Social services and
- Each council district

The committee voted to support a  $\frac{1}{2}$  cent sales tax increase, to be combined with a significant reduction to the property tax known as the Retirement Tax. Measure L will increase the retail sales tax from 8% to 8  $\frac{1}{2}$ %, generating approximately \$1.1 million annually to support essential City services. Accompanying Measure M will cap the Retirement Tax to 7.7 cents per \$100 of assessed value, which is a reduction of 30% from the current rate. The sales tax increase, Measure L, will only become effective if voters also approve Measure M.

The services that will be maintained by this revenue include:

- Police
- Fire
- Parks & Recreation
- Neighborhood crime prevention
- · Building code enforcement
- · Gang prevention programs
- · Road and pothole repair
- · Other services provided by the City

The Blue Ribbon Committee recommends this Measure because:

- It is the fairest tax, as it spreads the burden of funding City services across the entire population. We will all share the burden.
- The sales tax generated will stay in the City of Watsonville, protected from State and Federal government takeaways.
- Approval of this Measure and Measure M will result in lowering property taxes significantly while saving all City services.

Vote YES on Measure L. Lower your taxes while protecting City services!

### CITY OF WATSONVILLE

Shall the City of Watsonville amend Subdivision (b) of Section 1122 of Article XI of the Charter of the City of Watsonville by adding a new Subdivision (3) which caps the retirement tax rate at 7.7 cents per \$100.00 of assessed value, to be effective on July 1, 2007, if the voters also approve a one quarter of one percent (0.25%) sales tax increase?

### FULL TEXT OF BALLOT MEASURE M CITY OF WATSONVILLE

PROPOSED AMENDMENTS TO THE CHARTER OF THE CITY OF WATSONVILLE SPECIAL MUNICIPAL CHARTER AMENDMENT ELECTION NOVEMBER 7, 2006

The Council of the City of Watsonville hereby submits to the registered and qualified electors of the City for their adoption or rejection, the following proposal to amend the Charter of the City of Watsonville by adding a new Subdivision (3) to Subdivision (b) of Section 1122. Tax Limits to read as follows:

"(3) The tax provided for in Subdivision (b)(2) of this section shall not be collected at a rate exceeding 7.7 cents on each One Hundred and no/100th (\$100.00) Dollars of assessed value."

### IMPARTIAL ANALYSIS BY CITY ATTORNEY MEASURE M

Subparagraph (1) of subdivision (b) of Section 1122 of the Watsonville City Charter, adopted by the voters in 1960, authorized an additional real estate tax in Watsonville to be collected with other real estate taxes. The purpose of this additional real estate tax was to pay all annual City obligations to the State Employees' Retirement System, or other system for the retirement of City employees.

This tax has been collected annually since 1950. The rate in 2004 was 13.4 cents per hundred dollars of assessed value.

This Measure, if approved by the voters, would amend the City Charter by adding new language to Section 1122 prohibiting the City from collecting this retirement tax at a rate exceeding 7.7 cents per hundred dollars of assessed value. This would reduce and cap the retirement tax paid by all owners of Watsonville real estate.

This Measure would become valid and effective only if the voters also approve proposed Measure L which would authorize a citywide  $\frac{1}{4}$  cent sales tax. The City would use the sales tax increase to partially offset this reduction in the retirement tax

### FISCAL IMPACT STATEMENT BY CITY FISCAL OFFICER MEASURE M

Measure L and Measure M are co-dependent. That is, both measures must be approved by the voters for either to take effect. Measure L would increase the sales tax rate in the City of Watsonville by ¼%, increasing City revenues by approximately \$1.1 million. Measure M would reduce the property tax for the City employees' retirement program by 30% and place a new cap of 7.7 cents per \$100 of assessed value on the rate which could be charged. Measure M would decrease City revenues by approximately \$1.1 million.

Because Measure L and Measure M would oppositely impact cost flow within the same fiscal year, projections show that the difference between the addition of increased sales tax collections and the reductions in retirement tax collections would be negligible. Therefore, if Measure L and Measure M are approved by the voters the impact on the City budget would be neutral.

The City of Watsonville voters approved the retirement tax levy that partially funds the City of Watsonville's employee retirement system as part of the City Charter in 1949 and again in 1960. This levy is an ad-valorem tax. That is, the amount is based on the assessed value of the property and is above the 1% standard property tax rate. This tax is also a restricted tax as it can only be used to pay for the City's employee retirement system costs.

Annually, the City Council approves an ordinance setting the following year's retirement tax levy rate and instructs the County of Santa Cruz to levy that rate on all taxable property within the City. The collections are remitted to the City, held in a separate, audited fund and transferred into the General Fund as a cost reimbursement.

If approved by the voters, Measure M would amend the City Charter by placing a rate cap on the retirement tax levy of 7.7 cents per \$100 or \$77 per \$100,000 in assessed value. This would be a reduction of approximately 30% from the rate currently in place, which is 11 cents per \$100 in assessed value. This cap would set the maximum rate that could be collected for any annual period after June 30, 2007. In its 57 years of existence, the levy rate was below this proposed cap only once, in 1950, the first year it was established. Over this same period, it has averaged 22.3 cents per \$100 or \$223 per \$100,000 in assessed value.

Based on projections for the fiscal year beginning on July 1, 2007, this cap would limit the possible annual retirement tax collections to approximately \$2,400,000. This is \$1,103,177 less than the projected collections for the fiscal year beginning on July 1, 2006 which total \$3,503,177.

Due to assessed value increases, the City Council reduced the rate for the fiscal year beginning on July 1, 2006 to 11 cents per \$100 in assessed value while maintaining the amount required to adopt a balance budget.

### ARGUMENT IN FAVOR OF MEASURE M

The Watsonville City Council is committed to implementing the recommendations made by the Blue Ribbon Committee and this Measure is a reflection of that commitment.

When recently faced with a ballot measure regarding an existing property tax known as the Retirement Tax, the voters agreed to work with the City Council to find an alternate sustainable resource base for City services. Measure M would reduce the Retirement Tax while maintaining City services.

Vote yes on Measure M! This Measure sets a cap of 7.7 cents per \$100 of assessed value. Once this cap is in place, only Watsonville voters can change it.

This is your opportunity to reduce the Retirement Tax by 30%. Accompanying Measure L, if approved, will raise sales tax by ½%. This will spread the tax burden across the entire population, while reducing taxes for property owners.

This proposal is recommended by the Blue Ribbon Committee, which included representatives appointed by:

Vote yes on Measure M! You can reduce your taxes without losing city services. This measure only becomes effective if Measure L is also approved.
